

PRODUCT SUMMARY

DATARACK floor standing rack are specially designed for networking / server / audio video /data center and telecom applications. DATARACK are made of heavy duty aluminum vertical profile and with cold-rolled steel sheet and proceeded with Laser cutting, CNC bending, welding, and powder coated to meet industrial, ISO 9001-2015 and I4001-2015 standards. All product manufactured by DATARACK conforms to standards. DATARACK floor standing steel racks are in welded or CKD construction with 4 pillars Aluminum extrusion profile with Top and bottom provided with reinforced frames and supported by 6 / 4 nos. of depth channels for extra rigidity.

DATARACK Floor standing steel racks are having ventilated top and bottom cover with cut-out for cable access, Provision for Fans, and fan tray mounting. Front single or dual doors, glass/Vented/Plain/Perforated (Round/Convex) with single- or 3-point locks, Rear single/dual door with vented/perforated/plain with single- or 3-point locks. Side panels partially vented/plain. Racks with 4 nos. of heavy-duty castor wheels (2 with brake and 2 nos. without brake) / adjustable legs/plinth. Racks are available from 18U - 48U Variants with 600 & 800mm width and 600, 800, 1000 & 1200mm depth

Note:

- We can make customized requirements and other models on request
- 1U = 44.45mm

PRODUCT FEATURES

- Conforms to DIN 41494 OR equivalent ISO Standards
- Adjustable 19" equipment mounting verticals provide better mounting flexibility and maximizes the usable mounting space
- Depth adjustable mounting slots
- Precision engineering capabilities and best efficient software configuration product technology provide the best product quality and fastest delivery in the industry
- Top and bottom Panel with ventilation and cable entry provision
- Provision to mount cooling fans on the top panel
- Powder coated finish
- 100% assured compatibility with all equipment conforming to DIN 41494 (General industrial standard for equipment)

OPTIONAL ACCESSORIES

- Cooling Fans with temperature indicator
- Power Distribution Units
- 1U Cable Manager MS or PVC
- Cantilever Tray / Shelf Tray
- Mounting Hardware
- Stationery Shelf Tray
- Key Board Tray
- Earthing Kit
- Temperature sensor
- Support Angle
- Digital Lock
- Base Plinth
- Led Light
- Vertical Cable Manager

TECHNICAL SPECIFICATION

Rack Standard	Conform to DIN 41494 or equivalent standard
Construction	Welded or CKD (Knockdown)
Front Door	Lockable front toughened Glass Door / Perforated / Split Dual
Rear Door	Lockable Rear Door / Perforated / Split Dual
Side Panel	Vented with slam latches and lock provision.
Wheel	Castor Wheels (Breaks - without Breaks)
Basic Frame	Aluminum profile with steel end frame assembly top and bottom
Equipment Mounting	DIN Std 10mm sq slots
Mounting Angle	19" Mounting angle made of formed steel 2mm thickness
Standard Finish	Powder coated
Top and Bottom Cover	CKD- (Completely Knocked Down), vented and cable entry provision
Standard Color	Grey, off white and black
Load Capacity	500-1200 Kg (Customized as per load capacity)
